

Amphibian Survey internship position available

Tall Timbers Research Station & Land Conservancy is seeking an individual for amphibian surveys in the Red Hills and Albany areas surrounding Thomasville, Georgia. The internship is a 16 week appointment, February – May.

Skills and responsibilities

- Data recording and entry
- Identifying and mapping wetlands from aerial imagery
- Dipnetting ephemeral wetlands
- Identifying amphibians in tadpole or larval stage

Qualifications

- Biology degree or related field or working towards Bachelor's degree with minimum 1 year field experience
- Previous experience with dipnetting and amphibian identification a plus
- Previous experience with ArcGIS software and GPS a plus
- Must be U.S. citizen and have a valid drivers license with a clean driving record
- Ability to walk long distances through rough terrain in hot, buggy conditions

Compensation

- Internship stipend \$230/week (\$920/month)
- Housing provided

To apply please send a cover letter clearly stating your research interests, career goals, and the earliest dates in February and latest dates in May you are available to work. Also include your resume and a minimum of three references.
