

LEMOTTO SMITH – JOHN GOODNO FELLOWSHIP

Department of Biological Sciences
Marshall University
Huntington, WV 25755

The Lemotto Smith – John Goodno Fellowship supports aquatic research in the Ohio River and its tributaries for graduate students in the Department of Biological Sciences at Marshall University (Fellowship: \$17,000/year). The award includes \$1500.00 per semester for four semesters beginning in the Fall 2020, \$5000.00 per summer for 2021 and 2022, and \$2000.00 per academic year that can be used toward research or conference travel. The per-semester stipend is in addition to the Graduate (Teaching) Assistantship award through the Department of Biological Sciences. The Teaching Assistantship award includes \$4500 per semester and a tuition remission for four semesters.

Fellowship Requirements:

1. Applicant's research focus is on an aquatic biology about or within the Ohio River or its tributaries.
2. Applicant must be a fully-admitted and full-time graduate student pursuing a Master of Science degree in the Department of Biological Sciences.
3. The student must be in good standing in the Department of Biological Sciences. Graduate students admitted with probationary status are ineligible.
4. Applicant's primary advisor is a full-time tenured or tenure-track member of the Department of Biological Sciences. Applicant must be working under the direct supervision of their primary advisor. Students must contact a prospective mentor before applying for the fellowship.
5. Applicant must submit a complete application by the advertised deadline (17 April 2020).

Students interested in applying for the Smith-Goodno Fellowship should contact Jayme Waldron (waldron3@marshall.edu) for application instructions.
